

Cookies Policy

Version: April 11, 2025

This cookies policy ("Cookies Policy") explains how the Quantfury group (collectively "Quantfury", "we" or "us" and each member of the Quantfury group for whose services you registered) uses cookies on its websites, mobile applications, and other products and services or when you otherwise interact with us.

The Quantfury website and the Quantfury mobile application (together the "Quantfury App") use cookies to collect data from your device. Quantfury collects this data for the Quantfury App to operate, but may also use cookies to provide the best experience, improve your browsing experience, understand how you use the Quantfury App, personalise content and deliver service messages.

Cookies are small text files containing small amounts of information that are downloaded onto your computer or mobile device when you access a website or mobile application. It allows the website or mobile application to recognise your device and store information about your interactions with the website or mobile application. Some cookies are strictly necessary and are required in order for you to access the website or mobile application, whereas other cookies are non-essential. We are required to gain your consent to using cookies before you use the Quantfury App.

When you visit the Quantfury App from any device (mobile, tablet or PC), we collect information about your use of the Quantfury App, such as information about the device or browser you use to access the site (including device type, operating system and more), the way you interact with the Quantfury App, and the IP address your device connects from. You may not be able to initiate or complete some activities within the Quantfury App unless these cookies are installed and these cookies are considered to be strictly necessary for the purposes of the products and services that we offer.

The types of cookies used on the Quantfury App fall into one of four categories:

Strictly necessary

The data collected in this category is essential in order for Quantfury to provide services to you. The data is necessary for the Quantfury App to operate, to verify your identity and to maintain your security and privacy while using the Quantfury App. This category is always required as without this data the services cannot be provided.

Performance

The data collected in this category is used to inform us how the Quantfury App is used by you, for example which areas you use most often and if you receive any error messages. With this data we can then improve how the Quantfury App works.

Functionality and profile

Data collected in this category enables the Quantfury App to remember choices you make. This means a more personalised experience for you.

Targeting

Data collected in this category is used to help make our messages more relevant to you. The data may be shared within Quantfury and with third parties.

If you access our services via quantfury.com, you can control how non-essential categories of cookies are placed on your device by rejecting any non-essential cookies.
